Nanthakumar T

B.Tech AI & Data Science Student (2nd Year) | Ramco Institute of Technology

ABOUT ME

Motivated and detail-oriented Artificial Intelligence and Data Science (B.Tech, 2nd Year) student at Ramco Institute of Technology with a strong passion for AI algorithms, applied machine learning, frontend web development, and intuitive UI/UX design. Continuously learning through national hackathons (Smart India Hackathon 2026 Shortlist), verified technical industry certifications, and hands-on sensor builds. Dedicated to solving complex problems, analyzing data patterns, and engineering reliable software solutions.

EDUCATION

RAMCO INSTITUTE OF TECHNOLOGY

B.TECH - ARTIFICIAL INTELLIGENCE & DATA SCIENCE

2024 – 2028 (2nd Year)

• Currently pursuing 2nd Year (B.Tech AI & DS).

• Core focus: Artificial Intelligence, Machine Learning, Data Analytics & Modern Frontend Web Development.

KMKA / STATE BOARD HIGHER SECONDARY SCHOOL

HIGHER SECONDARY EDUCATION

2022 – 2024

• Completed Secondary & Higher Secondary with distinction in Mathematics, Physics, Chemistry & Computer Science.

• Graduated with Academic Excellence.

PROJECTS

MPLAD System - Project Guardian

• Led 6-member engineering team (Code Dominators) to national shortlist in Smart India Hackathon 2026 (SIH26102), designing a civic transparency platform managing INR 15 Cr/MP constituency funds with spatial GIS tracking and duplicate work detection.

• **Tech:** JavaScript (ES6+), React/Node.js, GIS Mapping, REST APIs, SQLite WAL

DOM - AI Study Assistant

• Engineered an intelligent study companion platform enabling learners to upload academic textbooks, PDFs, and notes for contextual multi-turn Q&A, automated chapter summaries, and accelerated concept mastery.

• **Tech:** Python, Google AI Studio, Gemini API, Document Parsing, JavaScript

IoT Battery Health & Motor Vibration Sensor Builds

• Built practical IoT sensor prototypes using an ESP32 microcontroller, INA219 current/voltage sensors, and accelerometers to explore Coulomb-counting battery health estimation and basic motor vibration logging.

• **Tech:** ESP32, Sensor Interfacing, INA219, Accelerometer, IoT Prototyping

TECHNICAL EXPERIENCE

Lead Frontend Architect & Team Leader

Team Code Dominators (Smart India Hackathon 2026)

2024 – Present

• Directed cross-functional engineering sprints and UI design architecture, building intuitive civic dashboards with spatial GIS tracking and dual-ledger budget reconciliation.

• Completed multiple software and hardware projects utilizing JavaScript, Python, and Embedded C++.

• Continuously enhancing expertise in modern frontend engineering, databases, system architecture, and IoT telemetry.

SKILLS

- JavaScript (ES6+)
- HTML5 & CSS3
- Python Programming
- Data Structures & Algorithms
- Applied IoT & ESP32 Basics
- REST API Architecture
- Responsive UI/UX Design
- AI-Assisted Development
- Problem Solving & Logic
- System Optimization

LANGUAGES

• English • Tamil

NANTHAKUMAR T

B.Tech AI & Data Science Student (2nd Year) | Ramco Institute of Technology

+91 97891 23456 | nanthakumar7750@gmail.com | Tamil Nadu, India

PROFILE

2nd-year B.Tech Artificial Intelligence and Data Science student at Ramco Institute of Technology passionate about machine learning, data science, and modern frontend web engineering. Proven track record as Team Leader in Smart India Hackathon 2026 (National Shortlist) and creator of practical AI and IoT prototypes. Strong technical foundation in Python, JavaScript, and Machine Learning principles, backed by 10+ professional industry certifications.

INTERESTS

- Artificial Intelligence & ML
- Data Analytics & Pattern Recognition
- Frontend Web Architecture
- Applied IoT & Sensor Prototyping
- UI/UX & Spatial Prototyping
- Strategic Logic & Problem Solving
- Continuous Tech Learning
- Focus Soundscapes & Music

CERTIFICATIONS

Professional Certifications & Recognitions

- Smart India Hackathon 2026 – National Shortlist (MoE & MoSPI)
- Google AI Studio Build & Deploy Challenge (GUVI × HCL AI)
- Deploying Open Models on GKE (Google Developer Groups)
- GenAI Powered Data Analytics Simulation (TATA Group)
- Technology & Forensic Analytics Simulation (Deloitte)
- Financial Controllers & Valuations Simulation (Goldman Sachs)
- 3D Spatial Prototyping & Wireframing (HP LIFE Foundation)
- Strategic Business Communication & Leadership (HP Foundation)

10+ Industry Certifications Completed

PROFESSIONAL SKILLS

- Technical Team Leadership (Led SIH 6-Member Team)
- Analytical Thinking & Systematic Debugging
- Critical Problem Solving & Logic Analysis
- Empathetic Collaboration & Team Coordination
- Attention to Visual Detail & UI Craftsmanship
- Calm Persistence Under Complex Challenges
- Continuous Engineering Learning & Adaptation

ACHIEVEMENTS

- Smart India Hackathon 2026 National Shortlist (Problem SIH26102)
- Team Leader of Team Code Dominators (Spearheaded MPLAD Platform)
- 10+ Professional Industry Certifications & Simulations Completed
- Google Developer Groups & OpenmadurAI Community Participant
- Developed Applied IoT Prototypes for Battery Health & Motor Vibration Tracking
